Fall 2007

Office of Student Life Programs

Congratulations!

Since you are one of the select 35% of applicants who we welcome as members of Lafayette's Class of 2011, chances are you were involved in lots of activities outside your high school classroom that helped make you a well-rounded student. Now that you are in college, that should not change. Studies show that students who are involved in the college co-curriculum (clubs, athletics, the arts, volunteering, etc.), as well as engaged in the classroom, are happier and more successful in college.

So, we want you to "get connected" to involvement opportunities right away at Lafayette, and then be selective about those in which you opt to invest your extra time. To prepare you for your visit to the *Activities Fair* on Wednesday, August 29th, the Office of Student Life Programs, with the help of club officers, has put together this at-a-glance guide to Lafayette's Student Clubs and Organizations. If you use this resource and attend the *Fair*, and still have questions about how to get involved, please don't hesitate to contact your Student Government representatives or visit our office at 115 Farinon Center.

Have fun "getting connected" at Lafayette.

Sincerely,
Pam Brewer
Associate Dean of Students
Director of Student Life Programs

P.S. If you want to start your own club, you can do that too! Check out the last page of this guide for information on Student Government recognition procedures for new organizations.

Starting an Organization

Prospective student clubs and organizations may acquire Student Government recognition by preparing a constitution and providing a roster of 20 or more interested participants to the Student Organizations Committee of Student Government.

If recognition is granted, student groups are asked to prepare formal budget requests annually and/or apply for special allocation from the Student Government during the academic year.

A large number of organized activities, clubs, club sports, societies and other student organizations are recognized by the College through the Student Government. Recognition permits these groups to develop programs and activities and to use College facilities. The College offers these groups leadership training opportunities and advising on financial and other matters of interest to student organizations through the offices of Student Life Programs and Residence Life, and the Student Government, but it does not provide any supervision for these groups. The College is not liable for any personal injuries and/or medical expenses resulting from club activities whether on or off campus.

For more information on how to run a club or organization event, pick up a Student Organization Guide from the Office of Student Life Programs (115 Farinon). Everything you will need to be successful can be found in the Guide, from helpful programming tips to required procedures and policy guidelines.
