Fall 2008  
Office of Student Life Programs

---

Congratulations!

Since you are one of the select 37% of applicants who we welcome as members of Lafayette's Class of 2012, chances are you were involved in lots of activities outside your high school classroom that helped make you a well-rounded student. Now that you are in college, that should not change. Studies show that students who are involved in the college co-curriculum (clubs, athletics, the arts, volunteering, etc.), as well as engaged in the classroom, are happier and more successful in college.

So, we want you to "get connected" to involvement opportunities right away at Lafayette, and then be selective about those in which you opt to invest your extra time. To prepare you for your visit to the *Activities Fair* on Wednesday, August 27th, the Office of Student Life Programs, with the help of club officers, has put together this at-a-glance guide to Lafayette's Student Clubs and Organizations. If you use this resource and attend the *Fair*, and still have questions about how to get involved, please don't hesitate to contact your Student Government representatives or visit our office at 115 Farinon Center.

Have fun "getting connected" at Lafayette.

Sincerely,

Pam Brewer  
Associate Dean of Students  
Director of Student Life Programs

P.S. If you want to start your own club, you can do that too! Check out the last page of this guide for information on Student Government recognition procedures for new organizations.
